**A Special Feature of the AUGUST SALE Living-Room Suites Built to Your Order**

A Living-Room Suite, made on your own specifications, to your order—just as you order a tailor-made suit of clothes. Surely this is an innovation that will appeal to those of distinctive tastes and ideas, or those particular of the quality. During the August Sale you can buy a Tailor-Made Suite for the price of a far inferior kind.

**Made Right Before Your Eyes**

There is no doubt of the quality in your mind after such careful buying—you can see what goes into the suite you are buying. You know the quality of the covering, the frame work, the springs, the cotton fillings—all are passed upon by you before the suite is built.

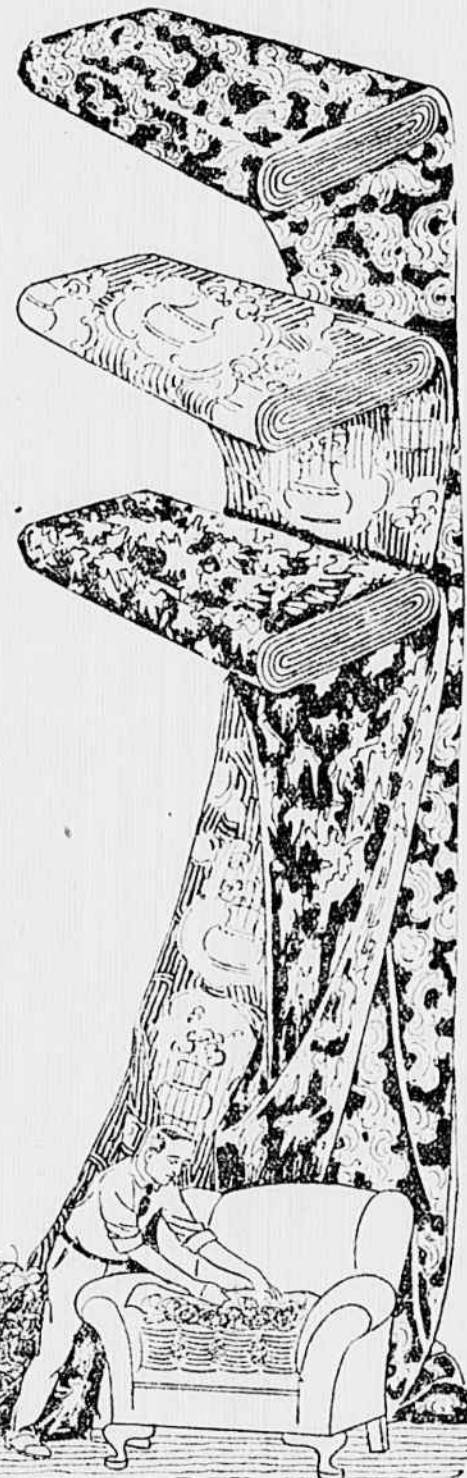

**See What Is Under the Covering**

When you buy a Bedroom or Dining-Room Suite, you can readily see the inner construction by simply pulling out a drawer. In these hand-tailored suites you see every bit of its construction by watching the workman build it to your order.

**Watch the Workmen Build and Upholster These Suites**

It is wonderfully interesting—and it enables you to see just how much care and skill is put in the work. You know for a certainty that the work is done in a thorough manner.
